How to Use This Book

Do one page a day. Each page has 20 practice problems and 2 word problems, and the topics follow the order most Grade 2 classes teach them.

Every 10th day is a review day that mixes the topics you have practiced so far.

Write the score at the top of each page. Answers are at the back, so a grown up can check the work, or older children can check their own.

Short and steady wins: about 10 minutes a day builds speed and confidence. When all 100 days are done, fill in the certificate on the last page.
