How to Play

Read each clue, then write the answer in the matching numbered squares, one letter per square.

Across answers go left to right, Down answers go top to bottom. Every letter belongs to two words, so a word you know helps you with the words that cross it.

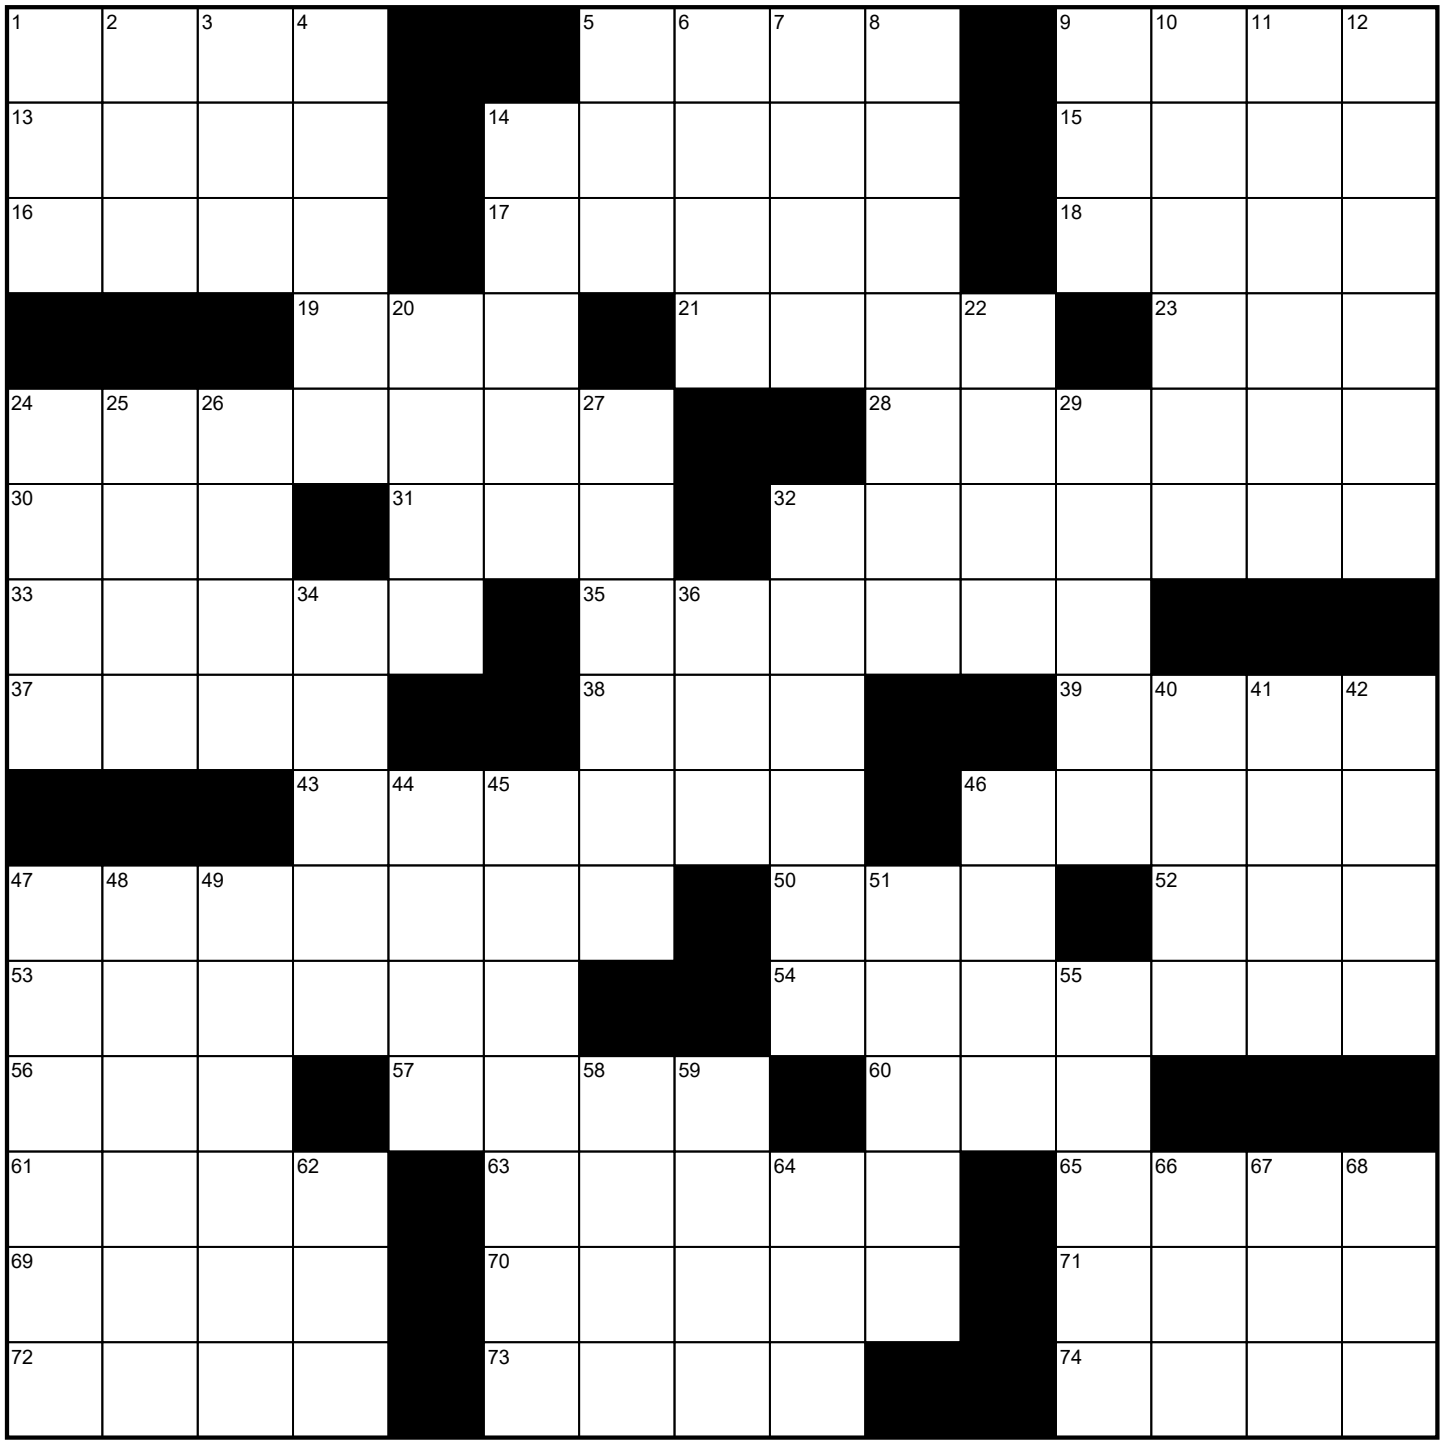

The first half of the book has easy clues, the second half has harder clues on the same kind of grid.

The grid is on the left page and its clues face it on the right. Answers are at the back.
