How to Play

Each puzzle is a famous quote written in a secret code: every letter has been swapped for a different letter. The same code letter always stands for the same real letter.

Write your guesses on the lines above the code letters. Short words such as A, I, THE and AND are a good place to start.

Easy puzzles give you 3 letters, medium puzzles give you 1, hard puzzles give you none.

The name under each quote is in the same code. Answers are at the back.
