First edition.

How to Play

Each puzzle has a short story and a list of clues. Use the clues to work out who goes with what.

Mark an X in the grid when a clue rules a pair out, and a dot or check when you know a pair is right. When a row has only one empty square left, that square must be the answer.

Every puzzle has exactly one answer, checked by computer, so you never need to guess.

Answers are at the back.

Easy Puzzles

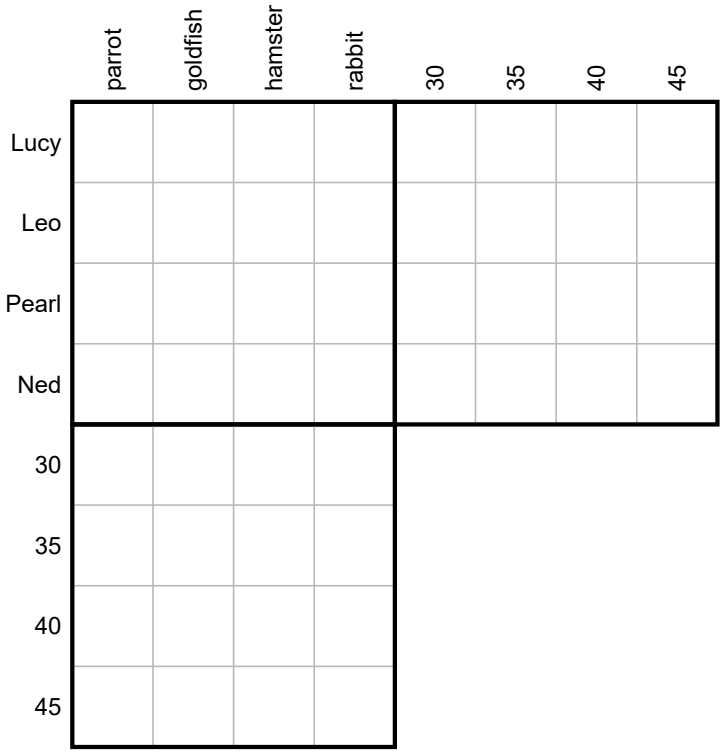

3 groups of 4

PUZZLE 1 EASY
